

THE ENGLISH CLUB:

Every country has a language and is proudly spoken. But one language that binds the whole world is English. That is why it is called the **Universal Language**. It is said that all study and no play makes Tom, Dick and Harry dull guys, so, *The Bansal College, Indore* proudly presents **The English Club** for the Holistic development of the students. As a part of the Soft Skills Development aspect, Communication Skills play an important role for a successful career. Under the guidance of the club, the students will be motivated to participate in various activities to groom their personality as well as improve their communication skills. It is said that a practical know-how is a better way to learn as compared to the theoretical pattern and that is what makes this club an added feather to the hat.
